Nazi Parachute Troops Discard Chutes and Run

The Nazis' highly effective parachute troops, which have so materially helped the success of the German drive, are pictured in action here. Men of this detachment have just been dropped from a Nazi transport plane. They have discarded their parachutes, assembled their heavy machine gun, and are dashing for the protection of the strategic railway line which runs on the embankment in the rear.

Hitler With His Parachutists at Front

In this picture of Adolf Hitler at the western front the Fuehrer is shown, according to the German newspaper-approved caption, with his troops who have been dropping from the sky. The parachutists are credited with leading the attack on Fort Eben Emael, Liege channel outpost. Note the crosses, Germany's highest honor.

NOW!!!
1940 Electric Refrigerators

Give you Twice the Value at Half the Cost!

AMAZING CHANGES HAVE BEEN MADE
One of the most important is in price. The family size electric refrigerator that used to cost \$300 ten short years ago, now costs less than \$150. That's a 50% SAVING to start with. And look at these amazing technical improvements! 1940 electric refrigerators...

FREEZE TWICE THE ICE IN HALF THE TIME! No matter how big a party you may have at the house, there'll always be plenty of ice cubes in those magically easy to release trays.

MAINTAINS SAFE FOOD TEMPERATURES because it's always as cold as an Eskimo's walk. No matter how hot it gets outside, food temperatures are held at the level essential to safety.

WHILE THE ICE MAKER IS RUNNING, IT ALSO COOLS THE FOOD. So you can keep your food cool and fresh all day long.

WHAT'S MORE, THEY PAY FOR THEMSELVES IN FOOD SAVING. Advance purchases and deliveries can be stored in convenient compartments — you save on electricity because the 1940 electric refrigerator costs 50% LESS TO OPERATE than the same size ten years ago.
